

The Problem

We have seen a trend toward higher repair costs and more emergency repairs than ever. Many industry sources are suggesting that the poor state of vehicle maintenance in the United States is not due to intentional neglect by the owner, but rather inexperienced and inadequately trained people overlooking potentially damaging problems during routine maintenance. In many cases an experienced technician has no contact with a vehicle until the first breakdown.

We realize there are certain economic and convenience advantages to having oil changes performed by quick lube shops. The long term outcome is similar to seeing your dentist every 5 years instead of every 6 months. Therefore, by the time we see the car, the cost to return it to safe and dependable condition is considerably higher than it would have been to have properly maintained it from the beginning. Despite what you are led to believe, even late model vehicles need more maintenance than just oil and filter changes.

Introduces:

The Lifetime Oil Change

The Solution

A lifetime oil change and maintenance inspection program performed by our ASE certified technician, who gets to know your vehicle like an old friend. Your vehicle's longevity will be substantially improved by this relationship. Those of you who have all of your maintenance performed by Seyfer Automotive know, first hand, our success stories with vehicles lasting tens of thousands of miles longer than average.

Call 303-422-5261

**4501 Harlan St
Wheat Ridge, CO 80033**

The Benefits

By performing regular maintenance inspections, we can keep you up to date on your vehicle's needs, so that you can count on the most reliable transportation possible and the best return on your automobile investment.

By changing your oil every 3 months or 3,000 miles, you can be sure the engine will last as long as possible. We only use premium quality NAPA oil filters and Pennzoil. We ask you to pay the cost of additional fluids and filters when they are required. These may include air filter, brake fluid, anti-freeze etc.

A Request

Our only requests are that you make an appointment for your service (which we will perform while you wait), allow us the opportunity to present maintenance needs to you in the form of an estimate, and that you consider the benefits and value of having Seyfer Automotive be your one stop auto repair provider.

Stop. Go. Pennzoil.™
